## Experience

### Frontend Developer Internship [Certificate](#)

Oct 2023 – Dec 2023

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

### Instructor

June 2024 - Current

Digital School

- Teach students aged 8 to 18 various topics related to the tech industry, including programming, web development, and digital literacy.
- Develop and deliver engaging lesson plans that cater to different learning styles and age groups.
- Utilize interactive teaching methods to enhance student understanding and retention of technical concepts.

## Projects

### React E-commerce App | [Website](#) | [GitHub](#)

- Created a library e-commerce website using React best practices

### Bookstore Management System | [Website](#) | [GitHub](#)

- Developed a social media app with (Sign in, Posting Tweets, Commenting) functionality

### Google Clone | [Website](#) | [GitHub](#)

- Integrated Google's API to create a real-world search engine to sort News, Images and Videos.

## Education
